

# Parenting Education Opportunity!

Network with other parents!

Share ideas & concerns about:

- Child development and behavior
- Enriching your family life
- Learning parenting tools
- Communication
- Helping your children to learn and grow

## “Make Parenting a Pleasure”

### **For parents and child care providers of children 2-8years.**

If you want to learn ways to get kids to cooperate at home or in school, this is the opportunity for you. Parents who have taken the sessions say that one of the best parts is meeting other parents and learning ideas from each other. “Make Parenting a Pleasure” presents a positive approach where yelling, nagging, and pleading aren’t necessary and parenting becomes much easier and more enjoyable. Parents who have taken the sessions say “the parenting tools really work!”
